Mankato Nursery

Mankato, Minnesota

We are not using any regular catalogue or descriptive bulletin for the spring trade.

Our stock is somewhat limited and consists mostly of the old time tried varieties that are so well known that they need no recommendation or description. You may consider the sizes in some varieties rather small but we know by long experience that a four foot fruit tree will stand transplanting better than the larger sizes; they have better root system, more in proportion to their sizes than the larger ones and they do not require cutting back when planted as the large sizes do. You will find our stock first class in every way, healthy, vigorous and ready to grow. The price on nursery stock like everything else, had to advance under the present conditions. Look our price list over carefully and you will readily see that our prices are as low as first class stock can be sold for.

HOW AND WHEN TO ORDER.

ORDER EARLY. The early orders always get the best attention and you are sure to get your first choice while our stock is complete. Give number, size and age of each article, write name plainly, also postoffice, freight or express office, or by parcel post. However, it is better to have all trees and shrubbery shipped by freight or express.

PARCEL POST ORDERS.

All trees and shrubbery under 3 ft. can be sent by parcel post. Add extra for postage on all trees and shrubbery, 20cts. for the first dollar, 15 cts. for the second dollar and 10 cts. for each additional dollar.

ORDER SHEET

Guarantee of Genuineness.—While we exercise the greatest care to have all stock true to label, it is mutually agreed between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally paid for the stock that may prove untrue.

All Orders should be sent in as early as possible to insure prompt attention; it is our rule to **PACK** them in the order in which they come to hand; hence we cannot, except for extraordinary reasons, delay orders, received first, for those coming late in the season and requiring attention at once. **In every case where possible it is advisable to forward goods early. If ground is not in condition to plant, or you are not ready to plant, bury the nursery stock or heel it in the shade.**

Cash Must Accompany All Orders **To Mankato Nursery, Mankato, Minn.**

FINE HIGHBRED POULTRY

Barred Plymouth Rocks	and	White Plymouth Rocks.
Buff Orpingtons	and	Rhode Island Reds.

We have no stock for sale but can furnish eggs for hatching from the above varieties, our chickens are first class and strictly pure bred and good enough for any breeding pen or show room.

Our poultry have a fine shady blue grass range, which makes them strong, healthy and vigorous, guaranteeing eggs of strong fertility. Do not think that our stock is of poor quality, because we are selling eggs cheaper than other dealers. We are raising chickens in connection with general farming and don't have to have as large a profit. Give us a trial order and be convinced that you can buy better eggs from us for less money than from lots of the larger dealers.

Price of eggs from any of the above kinds \$1.25 for 13, \$2.00 for 26.

Address, L. Z. Smith
Mankato, Minnesota.

Eggs for incubator lots
a matter of correspondence.
